ALLOWANCE

Claims 1-13 and 26-28 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding **claim 1**, prior art of record is silent to teaching a method of increasing the accuracy of a base station's estimation of additional uplink transmit power available of a subscriber station that has a radio that includes a power amplifier including foldback circuitry that monitors a current in said power amplifier indicative of actual uplink transmit power provided by said power amplifier to an antenna, said foldback circuitry operating to limit said monitored current to prevent said power amplifier from being driven over specification or being driven outside regulatory limits, said method comprising:

maintaining at a base station an estimated value for allowable maximum uplink transmit power for said subscriber station;

tracking at said subscriber station incidents of foldback, an incident of foldback occurring whenever said foldback circuitry operates to limit said monitored current to prevent said power amplifier from being driven over specification or being driven outside regulatory limits;

transmitting a foldback event message from said subscriber station to said base station whenever incidents of foldback tracked at said subscriber station reach a predetermined threshold; and

decreasing said estimated value when said base station receives a foldback event message from said subscriber station; and

increasing said estimated value when a predefined interval of time has lapsed without said base station receiving a further foldback event message from said subscriber station; and

subtracting uplink transmit power reported by said subscriber station from said estimated value to estimate of the additional uplink transmit power currently available to said subscriber station, when an accurate estimate of said additional uplink transmit power is required.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to WEN W. HUANG whose telephone number is (571)272-7852. The examiner can normally be reached on 10am - 6pm.
